Presentation to the Source Water
Protection and Watershed
Management Team
February 15, 2018

What is the purpose?

To create a tool for communities in Washoe County to help protect drinking water sources and manage the Truckee River watershed to maintain and or improve **water quality** (Source Water Protection and Watershed Management in Washoe County team meeting October 10, 2017)

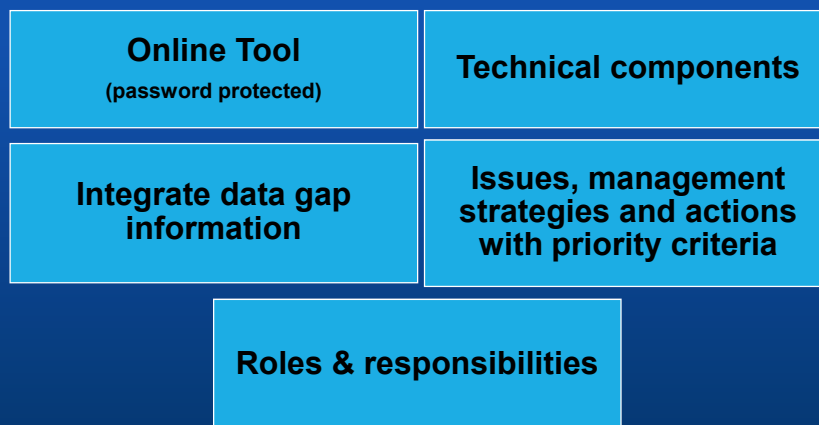

Progress	Engage entities with responsibilities for water quality protection	5 Team meetings, 47 stakeholders, 40 focus meetings
	Goals and objectives	Water quality protection management measures and actions
	Technical data, mapping, synthesis	Coordination with TMRPA for an online map tool

The Goals

- Regional support and approval
- Coordinated, consistent with and complementary to other plans
- Useful to funding and regulatory agencies
- Identify water quality problems and solutions
- List of prioritized implementable projects
- Process for implementation, with roles and responsibilities
- Process to show benefits and accomplishments
