Addendum 1

Issued January 28, 2025

Question:

We do have a couple of questions regarding the fee proposal. We understand that the RFQ must not include cost or pricing information, but that it may be required of the eligible applicants selected for interviews. Exhibit C, which is the provided sample of the CMAR Fee Proposal Form indicates that a fixed fee is requested. For CMAR type projects, we typically see a request for a rate sheet rather than a fixed fee. Will you please provide further guidance on this?

Response:

The RFQ requests a Statement of Qualifications (SOQ) currently. The RFQ Document does not require any costing information within the SOQ prior to development of a "short list" of qualified contractors. A cost range is to be provided by the firms that are to be interviewed with actual costs being negotiated with the contractor chosen based on qualifications.
